

GUIDELINES FOR ENTERING AND EXITING THE CLUB PREMISES BY CAR

Cars and other vehicles leaving the club premises via the drive **MUST** give way to oncoming vehicles. This is confirmed by a notice at the bottom of the drive as you leave the car park. To be clear, if a car has turned into the driveway from the main road, then this incoming car has priority and any driver leaving the club by going up the driveway must reverse back down the drive.

The drive is not wide enough for two cars to pass and this policy ensures cars coming off Watling Street can safely turn into the drive without causing a blockage and potential hazard on the main road. This is backed up by the Highway Code which specifically says that cars should not back out of a side road into a main road.

Drivers should also be aware that members may be walking down the driveway or across the car park and drivers must always give way to pedestrians.

When in the car park, please park in the marked spaces, not in the loading area or clearly marked no park zone.

We would be grateful if all members and visitors to RLTSC would comply with this policy.
